

Group & Individual Study Rooms

Pfau Library has a total of 13 group study rooms on the upper floors. All have whiteboards; dry-erase markers and erasers are available at the Check-Out Desk. All have at least one electrical outlet. Please close the door to keep your conversations from bothering others. *Group study rooms are only for groups of at least two people!* An individual cannot "hold" a room for a group, and any individual found occupying a group study room must vacate it if a group arrives.

Two rooms of these rooms are designated "Multi-Group Study Rooms," with several tables and whiteboards to accommodate more than one group. Groups must be willing to share these rooms so long as a table is unoccupied.

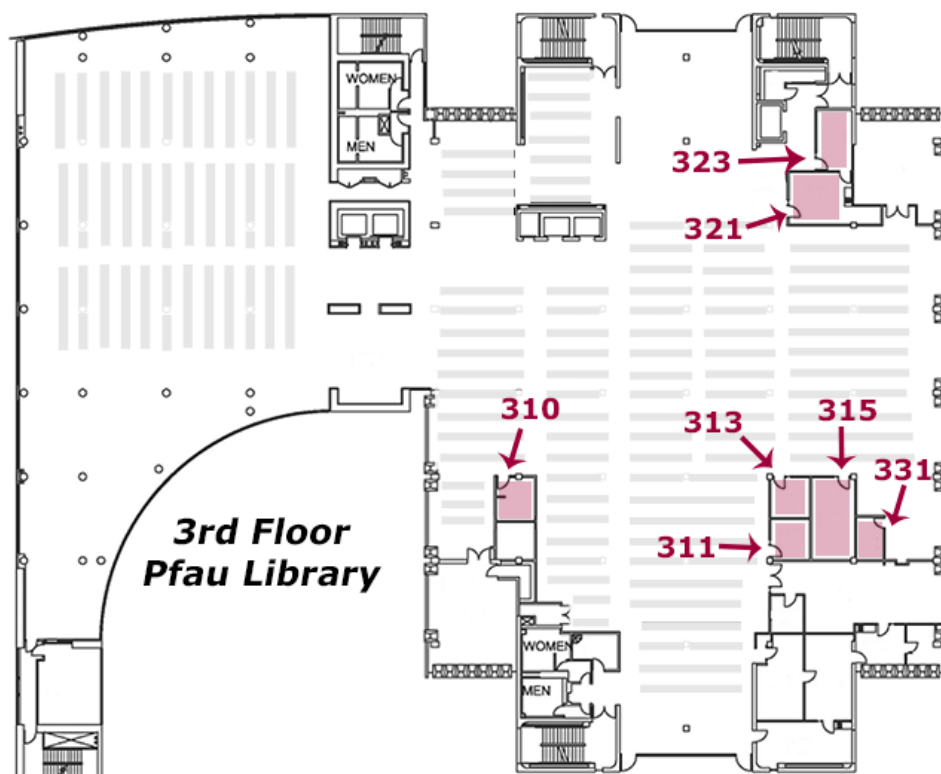

Six individual study carrels are available on 4th floor. All have electrical outlets.

Reservations

Eleven group study rooms on 3rd-5th floors, six individual study carrels on 4th floor, and two "Multimedia Collaboration Rooms" on 5th floor may be reserved in advance.

Make reservations at library.csusb.edu/services/reserveStudy.html

Locations

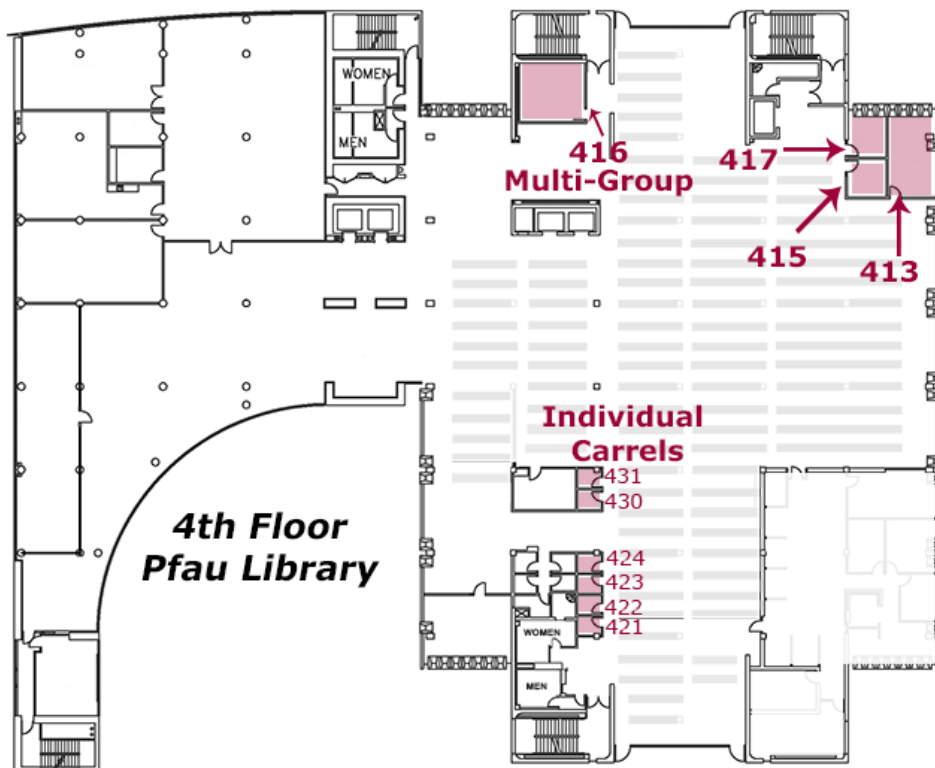

The 3rd floor has seven group study rooms
